

## LEGO Beginner

**Ages:** 8 -12 years old (no previous experience)

**Goals:** Students will engage in activities that:

- enhance personal creativity
- ability to follow instructions
- hand-eye coordination
- problem-solving skills
- critical thinking proficiency
- communication skills in teams

## LEGO Challenge\*

**Ages:** 9 - 14 years old

**Goals:** LEGO Challenge will spotlight programming concepts, mechanical and software design through hands-on active learning through structured lessons and challenges that will introduce students to programming topics, basic physics and scientific principles. At the completion of the camp, students will have deepened their personal creativity through working with teams to critically solve problems.

*\*Camper must have completed LEGO Beginners, other LEGO camp or class, or participated in First LEGO League Tournament*
