ELECTIVE Elective of choice	BIO 346 Pathophysiology I	CHE 210 Clinical Pharmacology

Start your Pre-Physician Assistant program in Portland and earn EMT/Paramedic training simultaneously!

Take three years of hands-on science and general education coursework, receive Emergency Medical Technician (EMT) and Paramedic training, and finish your final year* at Oregon Tech's Klamath Falls campus with a degree in **Biology-Health Sciences**. Your final year will consist of higher-level coursework as well as opportunities for hands-on experience working for a local ambulance and fire services department, providing direct patient care.

*The Pre-Physician Assistant Pathway can also be completed entirely at the Klamath Falls Campus, **without** EMT/Paramedic training.
