| <b>Total track credits required</b> |  | <b>12</b> |

**Total required credits for Master of Science in Allied Health (MSAH) 49**

Along with the core allied health courses students will choose a track based on their background and goals. All courses listed in the curriculum for the catalog year a student begins a program must be fulfilled. Six years are allowed for the completion of the program under that catalog.

Students must maintain a cumulative GPA of 3.0 or better in all graduate work to remain in good academic standing. A "C" or better is required in all program courses.
