

Start Your EMT Training with a Strong Foundation

Begin your training at a university program with abundant medical and educational resources from OHSU Medical School and Oregon Institute of Technology. Our challenging EMT training program is conducted over two terms covering all the classroom and hands-on training needed to be a successful entry-level pre-hospital field provider.

Hands-On, Real-Life Training!

We believe strongly that your training should be as close to real-life as possible which is why we incorporate **human cadavers** (ratio of 1 cadaver to 5 students!), **high-fidelity simulation training** with and without Paramedic team members as well as clinical rotations in an Emergency Department, Clinic and on a 911 Ambulance.

Start your EMT training with OHSU and Oregon Tech!

Emergency Medical Technician

Goal Oriented

We have designed our training to make sure you'll be well prepared for two critical goals: handling the state exam with relative ease and being able to perform successfully in the real world as an entry level EMT pre-hospital provider.

Opportunity for Real-Life Experience

We understand it can be difficult to find front-line work as an EMT so we started an EMT internship course that places you as a team member on a 911 ambulance for the summer.

Comprehensive EMS Education

We have the options and resources to expand your career from EMT training (now including all the required general education classes), a two-year paramedic degree and onto a Bachelors degree in EMS Management.

Take Steps to Learn More Today

- Contact Deb Disko deb.disko@oit.edu for an advising appointment to get started
- Visit our website for more information: www.oit.edu/EMS

Student Positions are Limited!

Please consider joining us for your EMT training - but hurry we've limited our class size to 20 students and enrollment is now open!
